**DETAILED ACTION**

***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance:

Claim 1 states:

. A disc drive adapted to a disk cartridge that includes:

A rotational member, which includes a gear as a part of its outer periphery and which rotates to open or close the shutter, the disk drive comprising: a motor for spinning the disk;

A shutter driving mechanism for opening and closing the shutter by rotating the rotational member of the disk cartridge, wherein the shutter driving mechanism includes a driving gear, which engages with the gear of the rotational member and which turns around a first rotation shaft, the first rotation shaft swinging around the center of rotation of the rotational member of the disk cartridge that is held on the holding portion.

The closest references (Inoue (US Patent Number 6590858) and Kurosawa (US Publication Number 2003/0058785)) disclose a cartridge that is opened by the disc drive via a rotating member to open the shutter. A gear rotates the member and the gear is on a rotational shaft, however, the shaft is stationary on the base of the disc drive.

2. Claim 1 is not anticipated by, nor made obvious over, the prior art of the record.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the

issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Matthew G. Kayrish whose telephone number is 571-272-4220. The examiner can normally be reached on 8am - 5pm M-F.
